The Ideal Tree Cultivation System

GROLOK
WIRE BASKETS

Grolok wire baskets are the ideal Tree Cultivation System. Growing trees to larger sizes in containers takes the seasonality and risk out of growing, selling and planting. No more losses from shock, stress or wilt.

Trees are always at their best, ready to be sold, ready to be planted.

Nurserymen, Landscapers & Retailers prefer Grolok baskets for ease of handling and planting ... including even the largest, highest & bushiest mature specimens.
You too can prove that money does grow on trees, with the Grolok system.

The containers are low and wide for stability in the nursery and for transportation; they are easy to move and to transplant, even when trees are quite large and mature. There is minimal shock to the tree & losses or die-back seldom occur. That's a plus!

PATENTED

Grolok Baskets

Side walls   Packed Flat (for shipping)

Cross-over
Bottom sections

Patented Factory   Open end
Fitted Clips   (to be hand crimped)
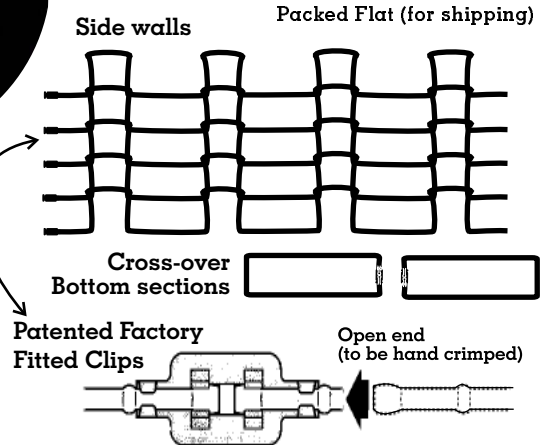

MANUFACTURED IN SOUTH AFRICA
